

NOTICE

Effective July 1, 2021, newly filed cases will resume the SCR 218 initial case management process in the Law Division Motion Section.

Electronic notices will be sent to all attorneys and self-represented parties of record for the initial CMC date, 60 days from the date of filing.

The notices will provide the date, time, Zoom access code information, and an email address for questions.

Case value, status on service, appearances, pleadings, pending motions, if the case is refiled and prior case number, will be required information for the CMC.

Attorneys and self-represented parties have the option to submit the required information, and a CMC scheduling order no less than 72 hours prior to the CMC date.

Upon approval and entry of that order, Zoom appearance by attorneys or self-represented litigants would not be necessary.
